COMBI CHAIN

NUMBER COMBINATION PADLOCK & CHAIN

How to set your combination:

1. Align the dials to 0-0-0-0 along the indicator line. (Fig. 1)
2. Open the shackle. (Fig. 1)
3. Turn the lock over so the back is facing you.
Using a flat screwdriver, turn the slot on the right anti-clockwise to RESET. (Fig. 2)
4. With the front of the lock facing you, rotate the dials to your desired number combination along the indicator line. (Fig. 3)
5. Return the slot on the back of the lock to its original position. (Fig. 4)
IMPORTANT! Do NOT scramble the dials until you have completed the next two steps:
6. Close and open the shackle THREE times to confirm the numbers you chose for your new combination are aligned correctly.
7. Now write down your new combination and put it in a safe place.

How to lock:

SCRAMBLE dials. (Fig. 5) Your new combination is now set.
