

New for 2014

- Completely re-designed and tested in the UK using top quality long-life components. A 2 year warranty is included as standard.
- A 'soft-start' charging mode to improve recovery of deeply discharged batteries as low as 8volts.
- Intelligent charging will 'cycle-charge' in an attempt to recover sulphated batteries.
- Suitable for all 12V automotive batteries including LITHIUM motorcycle batteries.
- New voltage sensors quickly detect high current drain and will automatically revert to the most appropriate charge rate.
- Fast and efficient charging in all modes keeps charge times short and reduces mains power consumption.
- Soft touch outer case for a quality look and feel.
