

CABLE & HOSE PRODUCTS

ReAction is the premier offering from Ashima and cannot be compared to its competitors as the range has no equal! The inner/outer casing combination has been designed to offer Elite Professional levels of performance whether it for smooth precise shifting or effortless high modulated braking. It also further benefits from using the Patented Ashima "Fer-Flex" flexible ferrule technology.

OUTER CASING: SP (Brake & Derailleur)

SP-High Strength Steel

- Ø5 & Ø4.5 , 19x Strand wires

Kevlar Braid

- High strength wrap to prevent migration of wire strands
- High strength allowing SP to be used as brake outer, lighter brake cable
- High strength, reduced compression for responsive feel
- High tech aesthetics

PVDF Liner

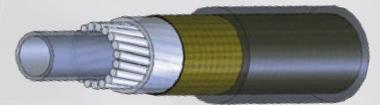

- Ultra low friction surface for improved efficiency
- Hard wearing for endurance/life

Lubricated Liner

- For exceptional response and silky smooth operation

Transparent Outer

- Unrivalled Aesthetics

INNER WIRE

Stainless Steel

- Slick, 19x Strands
- Increased environmental protection
- Reduced weight

Slick

- Pre Stretched to ensure 1 set-up
- Surface smoothed for improved efficiency

PTFE Coated

- Ultra low friction surface for improved efficiency
- Hard wearing for endurance/life
- Increased environmental protection

Universal

- Campagnolo/Shimano/ Universal end fittings
